There is a resource call each month, alternating between the two time zones. The topic is repeated, once in each time zone.

**Time Zone 1**: The call which covers the Africa, Canada, Europe, Israel and the USA
**Time Zone 2**: The call which covers Australia, Asia and New Zealand

As our global fellowship grows, we may need to add more nations to these lists.

*Please note that the World Clock Converter (Classic version) takes into account daylight savings changes worldwide, all you need to do is enter the time, date and location in the host country, then select your area.*

To calculate the time in your area, please visit [https://www.timeanddate.com/worldclock/converter-classic.html](https://www.timeanddate.com/worldclock/converter-classic.html)
