

MEETING HEALTH QUESTIONS OF THE MONTH
WAI – 2011

- December Are you reading your ‘smartphone’ or texting during meetings? Is your cell phone completely turned off? Vibrating phones disturb others in the meeting. Listening requires sitting still; otherwise, we are distracted from getting our medicine.
- November Does your meeting hold business meetings monthly? Are the WAI Summary Highlights and the WSI Quarterly Report read during your business meeting?
- October Are you remembering to reach out to newcomers at the break as well as before and after the meeting?
- September Are you waiting to get to the front of the room before beginning to speak?
